Instructions for the **Print It Yourself Nurses Day Kit** © 2005-9 Dare To Dream Productions

1} All files are .pdf format. You will need **Adobe Reader** to view and print all other instruction. You can download this for free from Adobe.com. Look for "downloads."

With the exception of the Nurses Day Card, all items can be used at anytime of the year to celebrate appreciation of your nurses.

2) The Nurses Day Card is in 2 pages. Test print with your printer to determine the direction to reload the paper if you don't have automatic double-sided printing capabilities. You can use card stock, photo card stock or even regular 20lb. printer/copier paper. Remember the images are photographs so bright white paper will produce a better copy.

3) The Bookmark looks best when printed on a glossy or matte photo paper, but card stock or 28lb. paper will work well. They print 4 to a page. Cut along registration marks with paper cutter.

4) The Certificate of Appreciation can be printed on parchment or printable velum paper, or regular printer/ copier paper. It has a place for you to WRITE in your facility's name and for a signature and date.

The HAT
1) print onto 8.5 X 11 paper (orientation is WIDE or Landscape)
2) cut out the triangles along the dotted lines.
3) Fold along the Fold Line so that the black stripe is visible
4) Match up the 3 registration circles. You can punch and connect with a brad, or staple the 3 sections together in the back of the hat.
